A Child's Hope Fund

**Changing Lives,
One Child At A Time**

**Annual Report
2005-2006**

Founder's Message...

It's easy to forget, surrounded by the abundance in our own lives, that others still struggle.

For many children that daily struggle is actually their battle for survival, whether from cancer, diabetes or other illnesses, abuse, war, natural disaster and even sexual exploitation.

A Child's Hope Fund saves lives and changes lives of children all over the world. This past year, we delivered relief and hope to thousands of children, especially across Central and South America and Africa.

We work with local charities to assist local people with practical aid, encouragement, healing, and tangible proof of God's love to thousands of children and their families.

Our local approach ensures that we provide long-term, effective life-changing aid to communities with minimal amounts spent on administrative overhead and fundraising costs.

We ask for your support both in prayer, and financial strength, both of which are essential for us to keep changing lives and giving living proof of God's love.

Rev. Joel MacCollam
Founder & President

A Child's Hope Fund

Thousands of children worldwide face public distain, poverty, hunger and disease, as well as cruelty. **ACHF** provides life-sustaining supplies, including food, water, medicine and clothing, to many of these young victims, especially in Central and South America.

We also support efforts to educate children and create an environment where they feel unconditionally loved...something every child needs. **ACHF** is changing the lives of children everywhere we work. With everything affecting the world today, our efforts are needed more than ever!

The barrios of Latin America offer little hope. However, thanks to our partnerships with local charities, children are offered a positive future beyond disease and poverty. Our special concern remains young victims of cancer and diabetes.

Girls and boys now can get the education, food, clothing, and love that they need to grow up with the best possible chance to become productive adults in their communities.

ACHF also brings support to areas struck by disasters, including war, earthquakes, famines, floods, and other horrors. Many children we assist are also victims of multiple forms of cruelty including drugs, manipulation, abuse and sexual crimes.

The smiles on so many youngsters' faces are the greatest reward for our efforts. We are blessed to see these children grow and thrive and become a force for change in their own communities. But the battle continues to save and provide for the youngest of our world's desperate children in need.

ACHF: Changing Lives, One Child at a Time sm
